Comments:

KNOWLEDGE

- effective to have model inside to use as a model demonstration for outside activity
- have the groups set prior to beginning - sometimes student input is necessary other times a distraction
- summary + discussion important element of activity

Comments:

PERFORMANCE

- assessed student understanding of area and perimeter is a quick spot check
- anticipate and plan as much before lesson - would a diagram of 5 placements been helpful? (No!)
- engaged students by spot checking for understanding

Comments:

DISPOSITION

- giving "wait time" to quiet down can be effective
- use management techniques that work for you "5-4-3-"
- paced the lesson well, organized, connect well to the students

OVERALL COMMENTS:

Your planned activities were based on learning but also had the element of fun! Good job!
